Subject: Changes in Schemes delivery managers - draft email
Received: 2012-03-08T18:32:01Z

Matthew,

Please see draft text for an email covering the suggested changes to the 'scheme delivery managers'. Not sure it's quite there but I thought I'd send you something you can play with... feel free to change as required!

Luis

As you know, the authority has recently been asked by DECC to consider the administration of ECO, a key component of the Green Deal, which is due to go live on the 1st October. This change means that David Fletcher will need to fully concentrate on ECO to conduct a feasibility study. In addition to this, in an effort to establish clear accountability and simplify the way we organise ourselves and how we interact with other parts of e-serve like EP and IT, RO Sustainability and RO Banding will be managed as a single scheme by Laura Missingham, who successfully applied for a temporary promotion. This also gives Keith the opportunity to manage NI RHI if we are successful, on top of his responsibility as FITs scheme delivery manager. In order to ensure this is done with sufficient handovers, we will move gradually to the new arrangements, that will be completed in time for the start of the new financial year on 1st April. We don't foresee changes in the rest of the team and will review these arrangements after the completion of the ECO feasibility phase.

Thanks. Sorry I couldn't pick it up last night. I might still circulate something for those who didn't make the meeting today.
