So the noises about them having no more £ in 12/13 may be unfounded? Mmm...

Many thanks Lindsay. Will get back to you on your previous email. We did raise the operational costs with DETI this morning and pointed out that they could be in line for some considerably higher costs and paying for a larger proportion of the scheme administration depending on uptake and queries received. They weren't actually that fazed, just asked for as much detail as we could give them once we had finalised it.

Will of course provide more detail soon.

P

Have you read the following documents which will assist you in submitting a properly made and high quality RHI application: The Renewable Heat Incentive Application Process – An Overview and Key Guidance: [Applicant Guidance Note 3](#); Ofgem E-Serve's Guide to the RHI Application Form: [Applicant Guidance Note 2](#). Further supporting information can be found on Ofgem's [How to Apply for Accreditation](#) webpage.

Hi Lindsay,

I had a reminder in my calendar to request any comments you may have on the Role Profile for the new Band C operations person for the RHI (NI). I'd ideally like to get this to HR ASAP as we've been promised a fast-track process if we get it in quickly.

Thanks

Paul
