Good Morning Joanne and Susan.

Please find below the last few questions I have been able to come up with. Am looking for quick answers if possible so I can incorporate into the Guidance today.

- Vol. 1 8.9 – “For the gas to be considered ‘suitable for conveyance’ (or transported in accordance with a gas transporter’s licence), it will have to meet the health and safety criteria (as defined in the transporter’s Safety Case), regulated by the Northern Ireland Health and Safety Executive, and any consumer protection measures that have been agreed by our Networks Team and/or industry” **Do you have a ‘networks team’ and would your Health and Safety Executive be involved in regulation?**
- Vol. 2. Table 3 4.52 – Circumstances where the FMS is required

Technology	Size	Where plant uses contaminated fuel is fuel measurement and sampling required?	Where plant uses fossil fuel for permitted ancillary purposes, is fuel measurement and sampling required?
Solid[O1] biomass	45kW and below	[O2]	
	Between 45kW - 1MW	Yes	Yes
	1MW and above	Yes	Yes
Biogas - gasification or pyrolysis	Under 200kW only	Yes	No
Biogas - anaerobic digestion	Under 200kW only	No	No
Municipal waste	All	Yes	Yes
Biomethane - gasification or pyrolysis*	All	Yes	N/A
Biomethane - anaerobic digestion*	All	Yes	N/A

Please could you confirm as to how this table should look re. NIRHI?
