Hi there

There are few other documents on that may need some updating: references to Regs, contact details, links etc:

- The Renewable Heat Incentive – Financial support for renewable heat technologies
- Renewable Heat Incentive (RHI): Ofgem's role – factsheet
- Periodic Data Submission Date Calculator
- RHI- Periodic Data Spreadsheet
- RHI- User Guide to Disputes

Most of these will either only need minor alterations, or not be relevant, but generally, as Edmund mentioned. Also, presumably NIRHI is to have a separate section on the website with relevant docs on that page. Perhaps then with some headline text on both NI RHI and ES&W RHI directing users to the alternative if they've navigated to the wrong place.

Cheers  
Andy

Hi Michelle, Ollie

Some other contenders:

- RHI FAQs - Metering
- Independent Report on Metering Arrangements – Template
- Manual Application Form
- Applicant Guidance Note 1 – Heat Pumps with Integrated Immersion Heaters

We'll need a clear way of distinguishing between NI-specific docs, and those which are general... so we should ideally have some versioning across all documents that make it clear to what they apply...

Thinking that through (sorry, you probably already have...), that also means existing versions of the NI-amended docs will need modifying to make it clear that they do not apply for NI, and that an alternative version exists.

Thanks  
Edmund
