[NI RHI Revised DPA \(2\).docx](#)

Matthew,

Please find attached a final version – the paragraph you referred too was somehow not included in the version below but is included here in para 4.19. The watermark has been removed and reference to this being the final version included on the cover.

If you have any further queries, please let me know

Mary

Subject: NIRHI: Update report to the Feasibility Study

Hello,

Please find attached the update report to the original Feasibility Study. DETI have seen a draft form of this document earlier this month and came back with some comments. Mainly asking for more clarification around cost changes and justifications for those. We have taken on board those comments and then passed this document through a full legal review. Following this, the document has been submitted to Matthew who suggested some more amendments which have now also been done.

I also attach a cover letter which has been reviewed by everyone as above, but did not draw any comments from DETI or legal.

Please let me know if you would like me to run through it in more detail with you or if we can formally send this to DETI.

Many thanks,

Paul Heigl
