Bob, this puzzles me. I have not been approached by legal regarding any concerns, nor been made aware of concerns from my team – apart from the issue of agreeing KPIs which we have previously been over and which don't form part of the funding agreement. It would be nice to have some light shed on what the internal matters are.

Matthew

I have now seen a note from Liz and am uncomfortable with where we are on all this. I am not prepared to sign this off until all internal matters are resolved.

Bob

Importance: High

Dear Fiona and Joanne,

Please find attached an update to the 2012/13 sections of the NIRHI feasibility study, along with a request for funding for the costs arising from this for 2012/13. I am sending this on behalf of our Managing Director, Bob Hull. My apologies for sending it so late in the day. We had expected to be able to send it this morning but unfortunately Bob has not been contactable most of the day as he has been in Glasgow.

Please note that we are seeking confirmation of funding by COP Monday, to ensure that we are able to start operating the scheme on Thursday. We look forward to your prompt reply.

Regards,

Matthew
