Hi Keith. I have a meeting with Michelle later today to discuss biomass requirements for NI. I am aiming to draft a project plan later this week, and will share with you once ready.

Subject: NIRHI AEA/Recardo Audit work

Rob

Further to our discussion at the back end of last week, grateful if you could offer up proposed actions and associated dates for the NIRHI aspects of the AEA/Recardo audit work. Once I have this nailed down I suggest we discuss how / who takes this forward.

Thanks. Of course, very happy to talk this through further if it would help.

Keith
