On the matter of reporting statistics on the NI RHI I'm not quite sure why this should be linked to the secure data transfer protocol that is being developed. The extract below from the legislation sets out the requirement for statistical reporting and this does not concern any reporting of personal or sensitive information. The question we raised in our recent telecon was around Ofgem producing similar statistical reports for the NI scheme along the lines of what is produced for GB. We can perhaps discuss further when we speak on the phone later today.

Subject: Change Control

Hi Seamus

Sorry for not coming back to you on the MI - Irrelevant information redacted by the RHI Inquiry I just tried to call to go through a couple of things but was unable to get hold of you.

Change Control – I have the draft change control that I would like to send through to you to make sure you're happy with it as I am hoping that we can get Chris Poulton and John Mills to sign off by month-end.

MI – this is caught up with the data sharing that you are working through with my colleague Atika. You already receive information from my colleague Mohini Depala, we just need to agree what you are after.

Visit – I'm trying to arrange a visit between Ofgem and DETI and would be grateful if you could let me know John Mills, yourself and Stuart's availability

Costs – I will be asking my finance colleagues to provide actual costs at the end of September, so that we have the true 6 month picture. From that we can arrange invoice, purchase orders, etc.

Irrelevant information redacted by the RHI Inquiry

in the morning, so I will give you a call. Please let me know what time is best for you

Kind Regards

Teri
