Good Afternoon,

As the additional user on Robert Livinston's account for NIRH [Personal information redacted RHI Inquiry], NIRH [Personal information redacted RHI Inquiry] I recently uploaded the meter reading to save. On double checking the values they seemed to be in-correct, looked like a typographical error on my behalf. I have on several attempts tried to change the values to the correct value, each time I save and a pop up appears to tell me this has been actioned, yet they haven't actually changed. Please see the attached document.

I request some verification/advise from a member of the RHI team.

Regards
Nicola Harron

Boiler three meter reading as follows;
