Customer support team

It will soon be a year from the launch of the NI RHI scheme. Most of our potential customers for new biomass heating systems are seeking some sort of loan finance. Following on from below statement please confirm that finance packages from the following sources are compatible with the NI RHI accreditation criteria.

- Carbon Trust interest free loans
- Green Investment bank loans
- Siemens Energy Efficiency Financing
- Asset Finance companies
- High street banking outlets

Dear Mr Cullen,

Thanks for your query regarding the Northern Ireland Renewable Heat Incentive (NIRHI).

The Carbon Trust interest free loan is not defined as a grant from "public funds" under the RHI regulations and therefore, it is compatible with the RHI.

I hope this has been helpful, however if you have any further queries please do not hesitate to contact us.

Kind regards

Customer support team

Please advise on the following issue.

If a new biomass installation capital cost is funded by means of the carbon trust interest free type loans can the RHI funding still be applied for and achieved assuming all other criteria is eligible.

Regards

Wayne Cullen
