Teri

I have been chasing up our information management team with regards to data sharing and the RHI. I don't have a full answer for you yet but IT have confirmed that the NICS is accredited to IL3 for storage so there is no issue as far as storage is concerned. As regards data transfer, a new service could be available which would facilitate data transfer, however it hasn't yet been utilised in DETI. A contact in IT is now going to investigate this service and how DETI could use it and come back to me. He is aware that this is a priority issue so should come back to me quickly but I will chase it up again towards the end of the week if I haven't heard back from him.

Regards

Davina
