Will

Yes I do.

Marcus.

Marcus

Before we send the minutes to DETI, I just wanted to check with you that you feel comfortable with us saying in the minutes that we don't feel that the level of formality in the NIRO agreement is required for NIRHI (this is the phrase in square brackets at paragraph 4.1).

Thanks
Will

Paul

Will's comments are attached here. I have nothing to add to those, save that a para should be added at the end to record that DETI said they are considering with their local lawyers whether regs 23 and 25 should be amended as regards grants and, if so, in what manner.

Marcus

Please find attached the minutes from today's teleconference. All comments welcome as soon as possible please so we can get these over to DETI.
