I do not agree that the £265 figure is correct. Can I suggest that you include both figures and provide a note explaining that a difference was only brought to light yesterday when we were informed of the new higher figure, we have not had the opportunity to confirm its veracity.

I hope that helps, sorry

P

Hi Tasfin

So just to confirm the correct figure should be £265k.

If everyone is confident that this is the correct figure I am happy to amend the pack.

Cheers

Sara

Hi Peter, I'm not sure where you may have received the previous NI information from, however Marc has provided the current NI costs figure to Sajith.

Regards,

Tasfin

Mark/Tasfin

In accordance with the information I have been given the figure Sara is using looks correct. If you want to bring new information to the table my first reaction is that this is incredibly late in the day since I don't remember any conversation with either of you about what the figures should be. On that basis I suggest you come and see me immediately you read this to tell me what you think the figure should be and how you have come up with a different number.

Thanks

p

Hi Peter

Below is a link to the draft Scorecard. The final pack will go to Bob and Paul at midday tomorrow.

Personal information redacted by the RHI Inquiry

Thanks for the heads up. Figures we have used are the ones which were presented in the 'MC Brief Update on spend to date Period 2 (to May) 2014-15'. Paul gave me a print off of them which he said he had received from you. I asked Sajith to let me know if any of the figures weren't accurate. If these aren't the right figures can you please let me know and I will adjust them.

Cheers

Sara

Sara

Can you please send me the balanced scorecard for Q1 that you have been producing.

As an aside I know you have done it because some people came to tell me I gave you the wrong numbers but I don't remember giving you numbers anyway!!!! Sorry, they may be on their way to you.

Thanks

P

Sorry Peter, I didn't mean to cause any issues, that was not the intention of my email. I shall try and get more clarity on the breakdown of the NI figures.

Regards,

Tasfin

I got the information on NI from Gareth and so I was confident this was correct. Did you ever think to check what I had been given was correct?

In terms of what resources I have been told are going to be applied to RHINI the £130k figure is correct. When you are next in the office this should be discussed because I am very unhappy about how this has been handled.

For clarity no one has provided me or my team with figures for RHINI until yesterday!

P
