Hi Gareth

We have just had confirmation from DETI that the scheme is likely to close end March due to budget constraints. To that end, we are starting to plan for a further volume of applications and need to aim to initial review each NI case that was received prior to 18 November between now and the end of March.

We are using existing resources as planned but need to bring in the two temps planned for backfilling the Pipeline people early to start their training. I'll send you a RAF shortly, but just wanted to give you early warning that this is coming 😊

Regards

Teri
