Subject: RE: CONSULTATION ON AMENDMENTS TO GB RHI GUIDANCE
Received: 2012-08-14T17:28:00Z

Hi Morag,

I will be away all the following week and as this is primarily a grants matter, Morag could you pull together the synopsis of responses to the consultation and our proposed position and take them to Bob's surgery to get a response in advance of the following Implementation Board?

Many thanks
Jacqueline

Subject: CONSULTATION ON AMENDMENTS TO GB RHI GUIDANCE

All

As you know, matters are proceeding apace in relation to the NI Scheme, including the preparation of guidance for the NI Scheme to correspond with Vols 1 and 2 of the GB Guidance.

The starting point is the GB guidance and Michelle has been working through that to establish what modifications will be necessary in the case of the NI guidance.

We are currently consulting in relation to proposed amendments to the GB guidance, notably concerning biogas production plants and the consultation ends on 22 August.

DETI's consultation on their own draft guidance is due to commence in the middle of September or thereabouts and I am conscious that, if the amendments on which we are currently consulting on the GB side are indeed to be made, it is likely to be concluded that they should be replicated in the DETI guidance.

In view of that and given the above timescales, it would be very helpful if a decision re the GB Guidance were to be taken as soon as possible after 22 August, with a view to following suit with the DETI guidance, either by adding these amendments to the DETI guidance or not as the case may be, according to the outcome of the GB consultation.
