Hi Teri,
 The below table shows the dates of the audits and when the reports were expected/the ones we have received.
 There has been a bit of a backlog with issuing reports as the auditors have been waiting for a line from us to summarise the reason for audit to include in the report. As the audits were all conducted within a matter of weeks it has taken them longer than usual to get them written up and peer reviewed at Ricardo as they have been continuing to complete audits already arrange for the GB programme alongside these. I provided the summary lines yesterday so am expecting that these will be issued to us over the next few days/week.
 Thanks,
 Shaneigh
