Hi Gareth

The final issue that comes and goes from DETI is data sharing. We have just set up a data sharing protocol with DECC but have nothing for DETI. This gets pushed about but they recognise they will have to pay legal costs and potential invest in development and IT costs their end before it goes further.

Hi Gareth

Yes these are the 3 things. They are still querying the 3 % and so I'm trying to work back the numbers to see if 2 % is more appropriate as they are suggesting. This, I think, will leave a shortfall, but I will let you know as soon as I can confirm.

Regards

Teri
