Hi both

Seamus called this morning and they have been asked by their Senior Civil Servant to get 50 audits completed on the scheme by the end of February. All very political with ongoing situation over there. This is an addition to what we have committed to do.

I know that previously we have stated that Ricardo can't do them in that timeframe but do we have any other way of supporting them with this and what would the likely cost be?

They are considering going with Action renewables as a one tender contract if we can't support...I've already pointed out that this could be a conflict of interest as they already have a number of cases in the system. Seamus is going to consider that.

Any thoughts very helpful- I've agreed to go back to him this afternoon.

Regards

Teri
