Good morning Edmund

I don't know if you have spoken as yet to [Irrelevant information redacted by the RHI Inquiry] or Peter McGrane or responded to Connel but just to let you know that I responded to this email from Connel with a phone call primarily to reassure him that the necessary legislative change will be in place within a short timescale.

Peter McGrane spoke to me prior to this by phone and at that point he had not spoken with you.

Regards

Seamus

Subject: Peter Mc grane [Irrelevant information redacted by the RHI Inquiry]

Edmund / Seamus,

Have spoke with peter and [Irrelevant information] earlier this morn and neither of them have received any letters confirming whats happening regards their applications, when will these letter be posted??

We urgently need direction as to what can be done to sort their current situation as it is costing them more and more money every day, surely you can appreciate the urgency of this situation.

It is obvious the issue regards their application is linked to the carbon trust loan, can you please let us know if these loans are repaid can these client avail of the RHI??

Seamus you had mentioned to Peter earlier that there was a requirement for a legislation change before these guys would be able to apply for the RHI even if the load was now repaid, is there no way that OFGEM or DETNI can put forward a case to make acceptance for these 2 applicants given the situation they have found themselves in through no fault their own?

If we are to wait on a legislation change before they can resolve this issue God knows how long that will take given that it has taken over 10 months to get to this point which is not much further forward from where we had started.

Can you please come back with detail on how these applications can be resolved because the way this has been dealt with to date is simply not good enough and if you were in Peter or [Irrelevant information] position I am sure you would agree.

If neither of you are able to advise on how we get this resolved can you please advise who we need to speak with to get this thing to move forward.

Your earliest response would be appreciated.

Kind Regards

Connel Mc Mullan
