Attached data for month/qtr reports,

Any queries please do get back to me.

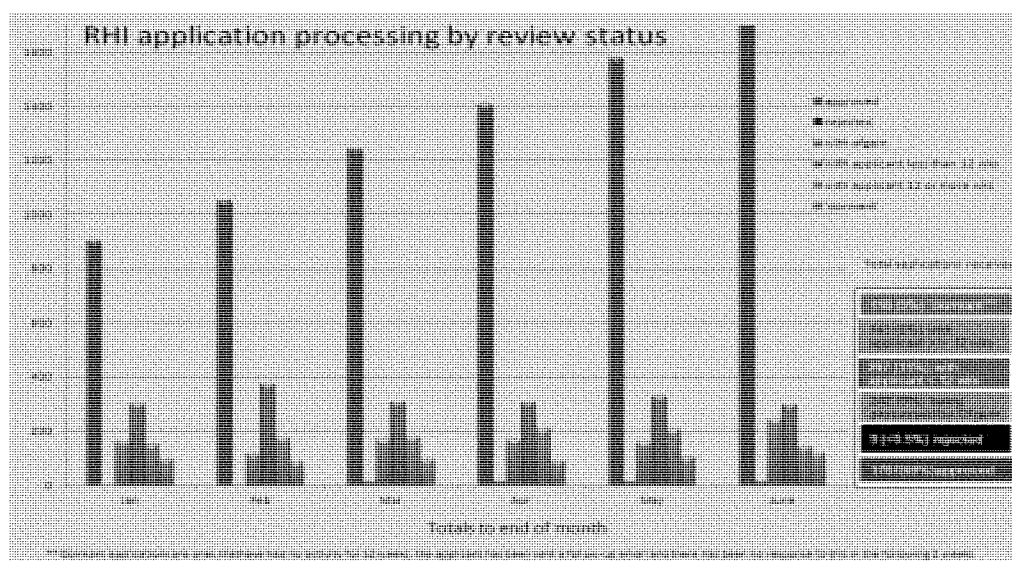

Nigel.

Mairead,

Information needed for the GB monthly report:

- Number of applications received in month
- Number of accreditations approved at month end within the month
- Number of amendments approved (need to ensure no double counting)
- Total number of accreditation approvals to- date (cumulative)
- Total preliminary approvals to-date (cumulative)
- Total number of applications in process at month end
- Total number of amendments in process at month end
- Total installed capacity including prelim applications(sum of capacity of approved applications)

Graphical display of data as follows:

- Number of applications with Ofgem for 6 weeks or less at month end
- Number of applications with Ofgem for more than 6 weeks at month end
- Number of applications incomplete less or equal to 12 weeks with applicant
- Number of applications incomplete greater than 12 weeks with applicant
- Number of applications dormant > 12 weeks no response.
- Number of rejected applications

Information required for the quarterly report:

- Number of installation accredited (1st April to 30 June) and percentage of increase since last quarter
- Chart with RHI installed capacity and payments, cumulative – (Payment information to be provided by Deckerson)
- Number of applications received and percentage of increase since last quarter
- Proportion of accredited installations by technology type (numbers and percentage)
 - Ground Source Heat Pump:
 - Solar Thermal:
 - Solid Biomass:

Water Source Heat Pump:

- Total capacity installed by country, cumulative
 - England: 280,715 KW (Full), 25,380 KW (Prelim), 306,095 KW (Total)
 - Scotland: 66,910 KW (Full), 4,568 KW (Prelim), 71,478 KW (Total)
 - Wales: 25,222 KW (Full), 1,000 KW (Prelim), 26,222 KW (Total)
- Additional capacity added during the quarter and percentage of increase on the capacity added within the previous quarter
 - 138.1 MW of capacity was added to the scheme (of which 2.5 MW came from preliminary accreditations) during the quarter
- Number of accredited installations by country
 - England: 1314 (Full), 20 (Prelim), 1334 (Total)
 - Scotland: 318 (Full), 6 (Prelim), 324 (Total)
 - Wales: 118 (Full), 2 (Prelim), 120 (Total)

Information required for Northern Ireland Monthly report:

- As GB report above but for NI applications only.

Link to monthly report to what finished data format looks like:
