RE: NI Quote

Hi Amy,
 I have attached the previous correspondence from July providing you with the quotes that we had previously agreed. If you need to see the original Northern Ireland quotation provided to Rob Reid in September 2013 I can also send this over. As discussed last week the main difference to GB is that we included travel time based upon our agreed framework rate with Ofgem. This was [REDACTED] for a senior auditor to account for 0.5 day each way associated with travelling to airport, flight time etc. Across 5 audits that we carried out in August this amounts to £120.80 extra per audit than a GB audit.

Grade of Audit	Number	GB Price per audit	Additional metering checks	Auditor travel time per audit	Price per audit	Total Price
Small simple	Sensitive commercial information redacted by the RHI Inquiry					
Small complex	[REDACTED]					
Medium simple	[REDACTED]					
Medium complex	[REDACTED]					
Sub-total	[REDACTED]					

Finally, just to avoid any confusion the T&S costs associated with direct travel bookings are invoiced in addition to the above. These are as provided on the October invoice which came to £459.82 for the 5 audits combined.

Whilst I am thinking about this I will send David and yourself an email about invoicing under the new contract.

Does this all make sense? Happy to discuss if not.

Thanks
 Oliver

Hi Oliver,
 Please could you send through the information regarding the NI audits asap as I cannot approve the reports with out seeing it?
 Thanks
 Amy

Hi Oliver,

This is all I can find and there is no mention of travel time? (see highlighted bit?)

If you could find that other email you were discussing that'd be helpful before I approve the invoices?

Thanks,

Amy

Subject: RE: NI Quote

Hi Amy,

Just had a look back at our original quote from September 2013. Having reviewed your comments below, we were covering HLCs under the original changes so this does not represent anything in addition to what we proposed before. Based upon the previous examples of 5 and 10 audits and the illustrative mix of audits we were given previously I have revised the rates to reflect our Y3 contract costs as per GB audits. This is the only difference in the price i.e. for small simple the difference between Y2 and Y3 is £15, see pricing schedule on PDP for detail on this inflation.

Therefore updating the tables provided with this change mentioned above equates to the following tables below in table 1.1. and table 1.2. I can provide you with a more formal quotation if required as previously. If you are selecting up to 5 sites you can use the individual price from table 1.1. below.

Table 1.1 Audit price for 5 audits

Grade of audit	Individual price	Number	Price[1]
Small simple	Sensitive commercial information redacted by the RHI Inquiry		
Small complex			
Medium simple			
Medium complex			
Sub-total (excluding T&S)			
T&S[2]			

Received from OFGEM on 07.06.2014
Annotated by RHI Inquiry

Total
Table 1.2 Audit price for 10 audits
Grade of audit
Small simple
Small complex
Medium simple
Medium complex
Sub-total (excluding T&S)
T&S[3]
Total

[1] The price includes additional checks Ricardo-AEA have discussed with Ofgem surrounding the distance of the heat meter from pumps and valves and buffer vessel checks. It does not include additional checks for vents which Ricardo-AEA expect are unlikely to be part of installations across a sample of 5 or 10 installations. Should a site with vents be identified then this Ricardo-AEA would undertake extra checks for that installation at an additional cost of £38.

[2] T&S: Ricardo-AEA will invoice upon actual T&S incurred. The budget price assumes flights of £250 return, hotel costs of £60 per night, hire car of £25 per day plus petrol. Staff subsistence (i.e. meals) will not be invoiced for.

[3] We have assumed 2 return flights as it is unlikely to be practical to arrange all audits within one week.

Happy to discuss if anything is unclear.

Regards,
Oliver

Subject: NI Quote

Hi Oliver,
 I have checked with the development team and they don't think that NI regs have changed. They do think applicants need to do heat loss calculations now though- not sure if this is something you did before? Please provide a quote based on previous checks (assuming heat loss was included). Any questions let me know.
 Just a reminder re the other things we discussed just now..

- New checks for batch 3
- Biomethane pricing/ audit dates
- I forgot to mention but if you could send me through the risk assessment used for site audits too? (I have had approval for the IOSH course now, so just need to do that and hopefully can start attending)

Cheers,
Amy
