Paul see attached I will confirm amendments and payment in morning if I can get in before I go out with companies. Otherwise it may be next Wednesday before I can get to this.

Email not working today only got this now.

Hi John,

I corrected/amended the report. Please find my comments in blue.

Kind Regards,

Bastian Abicht  
Assistant Project Manager

ACTION RENEWABLES  
Block C, Unit 1

1. Will you please change the reference from Irrelevant information redacted by the RHI Inquiry on the front page to the correct address.

Amended

2. Please can you check the annual value of the 2 x 40kw Biomass Economics Using your formula I get a figure of £8249 not £5,317. Correct me if I am wrong or please amend the figures as presented throughout the report. This may significantly affect the payback.

Thanks for spotting this. I corrected the calculation.

3. Can you please confirm that you are proposing 2 x 40kw Biomass Boilers and provide some rationale including if they are hydraulically linked etc in relation to RHI support, is one of them to be a lead biomass boiler with the other meeting peak demand?? and does the costs reflect the 2 biomass boilers being housed in one contained unit.

Amended in Chapter 6.5.2 & in chapter

4. In addition the summary table at the end of the report details 99kW biomass when 2 x 40kw are proposed. Will you please amend.

I amended this in the Appendix, thanks.

5. In addition I made minor corrections in the solar PV section (Roof rental calculation)
