Thanks for this Mick

A good report will however you please consider the following and amendments and corrections as appropriate. They are mainly issues around the figures and calculations for the ASHP option and clarification needed. The figures for Biomass are correct.

Hopefully we can then review and make prompt payment of invoice

1. Page 4 - Figure required for total value of installing 2 x 100kw Gas Conversion (if available)
2. Page 4 – Value of RHI in £ could this be provided in addition to the RHI rate
3. Page 4 – Check ASHP figures see below.
4. Page 11 – Please check figures for Annual Savings (Existing Oil £28,473 –New Running Costs (New Running Costs = £18,369 (£15,141 ASHP + New Oil £3,228)) = £10,104 not £14,056
5. Page 11 = Please check figure for Total Annual Savings (£20, 004) and Payback and CT Savings and Loan
6. Page 9 – states correctly that RHI for ASHP has not been approved yet correct – yet this is used in Page 11 Economic assessment at £0,025p/kWhr – clarification required that you are assuming ASHP rate will come in at £0.025p/kWhr

Regards

John Batch
