Thanks Seamus

Yes That's what I see and the Tier 1 RHI and Tier 2 RHI tariffs are applied accordingly with the remaining Oil costed out as well.

They seem to think there is no Tier 2 RHI and his email was indicating that he had spoken to DETI and OFGEM to support this.

I will go back to him again.

Many thanks

John

Morning John

Unless I am misreading this Nigel is allowing for a two tier scenario under RHI up to the 400,000kWh cap:-

- **Tier 1 261,486kWh**
- **Tier 2 138,514 kWh**

Remainder 191,136kWh from oil backup.

Regards

Seamus
