Hi Lucia,

thanks for keeping me informed.

I'll happily to continue to cooperate with the PAC in the hope that this helps guide future green policy and, if including my email trail or extracts of it facilitates that, then I'm content with that.

To be honest, I still worry that nothing will change and Departments will not act on the genuine concerns of people working within industry, who really see what is going on. As such, I think there should be an open forum with the Departmental Permanent Secretaries to discuss such issues, instead of meetings behind closed doors and private consultations - where issues are at best evaluated internally and may never given the light of day, until they materialise a few years later - as was the case with non domestic RHI. I suppose we can but try though.

Kind regards,  
Janette

Hi Janette

I thought you would like to know that the Committee was content with the information you provided. The general consensus was that you had provided a detailed picture of events which added greatly to the inquiry without the need to call you.

I will probably be in touch again to seek your views on whether you would be content for your information to be included in an annex to the report (in its entirety or extracts). If you do not feel comfortable with any of it being included just let me know in the course of time.

The inquiry is likely to go on until after Christmas and the final report will be another month or so after that. I would like to think we would have it concluded by March.

I'll keep you posted on all of the above.

Thanks for your help to date. It is very much appreciated.

Kind regards  
Lucia
